

## Older wiring Questionnaire

Placement of homes where the electrical wiring has not been completely updated within the last 25 years will be considered depending on the following:

1. Electrical service is 100 Amp or greater, including U/L Approved circuit breakers of proper amperage? YES/NO Year updated .....
2. Wiring is U/L approved copper wiring? YES/NO
3. Wiring and electrical system is in good condition and has not been subject to arcing, shorting out, persistent circuit breaker tripping or caused damage to property within the last 10 years? YES/NO
4. Is a Ground Fault Interrupter (GFI) present in all rooms which have running water or associated plumbing in them including but not limited to kitchens, bathrooms, rest rooms, utility rooms, pool rooms.

By evidence of my signature, I swear that all of the answers to the above questions and the information provided are correct and accurate representations. I further understand that the placement of coverage is contingent on the accuracy of these representations. I understand that Insurers and their representatives have the right to inspect the inside and outside of the premises to verify the information provided and give my consent to such inspection.
